@lichtblick/suite-base

`npm` `v1.9.0`

`license` `not identifiable by github`

This package contains core components used in [Autotblick](#).

Quick start

When contributing to the [Lichtblick](#) codebase, you can import from `@lichtblick/suite-base` at its top-level or from lower in its directory:

```
import { ExtensionInfo, ExtensionLoaderContext, ExtensionLoader } from
"@lichtblick/suite-base";
import fuzzyFilter from "@lichtblick/suite-base/util/fuzzyFilter";
```

For a full list of the package's exports, reference its `index.ts` [file](#).
